

REDMAIDS' HIGH SCHOOL

FOR GIRLS | BRISTOL

INFORMATION AND RECORDS RETENTION POLICY

Introduction

- 1 This policy sets out a structured approach to reviewing and destroying records in relation to Redmaids' High School (the **School**).
- 2 The retention period for each type of record is shown in the table below. In addition, data protection legislation makes it unlawful to keep the information when it is no longer needed for the purpose for which it is held. This requirement is uncertain and allows discretion and may vary according to the circumstances, but in practice it means that the School should promptly destroy the record once the retention period in the table below has been reached. Occasionally there may be special circumstances which mean that a record should be kept for longer (for example where there is a risk of litigation or a request from an outside body such as the Independent Inquiry into Child Sexual Abuse (IICSA) see below). The School should refer to its insurance policies and further legal advice should be sought in these circumstances.
- 3 The retention periods stated in the table below are the minimum storage requirements, in practice the School carries out a data cleanse of its files every 12 months. Accordingly, a 3 year retention period means 3 years plus up to 12 months to allow the School to securely dispose of the information.
- 4 Information must be securely deleted. This applies to paper records and electronic information. Access to any records prior to deletion is limited to those who are authorised by the School. When records are destroyed, whether held as paper records or in electronic format, the School will ensure that they are safely and permanently erased.
- 5 As far as possible, information will be anonymised.
- 6 This policy does not apply to records connected with commercial activities.
- 7 The School will discuss document retention with its insurers (who may specify longer retention periods). If there is any conflict then any longer retention periods specified by the insurers should prevail.
- 8 If an email falls into one of the categories set out in the table then it should be filed centrally as soon as is reasonable.
- 9 As best practice, "routine" emails which do not fall into any of the categories in the table may be kept in inboxes for up to one academic

year and should then be archived. An example of a routine email is an internal email advising staff that the weekly meeting is cancelled.

10 Independent Inquiry into Child Sexual Abuse (**IICSA**):

- 10.1 The IICSA has issued retention instructions to a range of institutions regarding records relating to the care of children. In light of this, we are advising schools to temporarily cease the routine destruction of those records which might be relevant to the Inquiry in case they are requested by the Inquiry or made subject to a disclosure order. This means that before destroying **any** document the School should consider if it contains information that may fall within the Inquiry's remit.
- 10.2 The range of documentation which might need to be kept is wide. It will include any information linked to alleged or established child sexual abuse, whether by staff, volunteers or pupils with no limitation date. For example, a list of pupils who attended an overnight school trip or admission registers which show which pupils were at the School at a given time. As such, documents should be kept for longer than the retention periods listed in the policy if they concern information which might be relevant to the Inquiry. The School should therefore review the retention periods under **each** of the rows below in case they are relevant to IICSA.
- 10.3 Please note that the School should keep this under review so that it recommences document destruction at the appropriate time.
